# 1.1

## Climatic factors

1 Use map A to answer this question. In table B underline the correct word from the pair in brackets. Then complete the sentence.

B

Climatic factor	Climate
Latitude	① is (warmer/colder) than ② because _____ _____
Distance from the sea ● in summer ● in winter	③ is (warmer/colder) than ④ because _____ _____
Prevailing wind	⑤ will be (wetter/drier) than ④ because _____ _____
Relief (height)	⑥ will be (wetter/drier) than ④ because _____ _____
	⑥ will be (warmer/colder) than ④ because _____

2 Look at table C and map D.

a) Which of these climate factors cause the climates of Glasgow and Moscow to be different? Underline your answers.

*Latitude    Distance from the sea    Prevailing wind    Relief*

b) Why is Moscow warmer in summer and colder in winter than Glasgow?

\_\_\_\_\_

\_\_\_\_\_

c) Suggest why Glasgow has more rainfall than Moscow \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

C

	January temperature	July temperature	Total rainfall
Glasgow	4 °C	15 °C	1560 mm
Moscow	-15 °C	20 °C	630 mm

D
